KAIYODO is highly acclaimed worldwide as a model-making group, boasting original ideas and outstanding technical prowess. Over more than half a century, it has reached an unprecedented scale of over 3,000 works and powerful production, all brought to you through this major event—KAIYODO EXPO—finally coming to Kyoto!!

### What is KAIYODO EXPO?

Since its founding in 1964, KAIYODO has sent attractive figurines out into the world one after another. At this expo, we will show off our over 3,000 works, tracing the path of our history from the earliest figurine creation period to our latest works. The venue is made up of four exhibition zones—the largest hands-on exhibition event in our history where you can enjoy figurines in a variety of forms.
